

**The 6th International Conference on
Social Sciences and Intelligence Management
(SSIM 2026)**

December 17-19, 2026, Chaoyang University of Technology, Taichung, Taiwan

**Special Session on Intelligent Language Education, EMI, and Digital
Communication**

Call for Papers

Organizers: Dr. Chian-Wen Kao and Dr. Wen-Chi Hu

Language education is changing quickly as AI tools, English-Medium Instruction (EMI) courses, and digital communication become more common in classrooms and universities. These changes raise practical questions about teaching, learning, assessment, communication, and policy. This special session, “Intelligent Language Education, EMI, and Digital Communication,” invites original research, case studies, and review articles on these issues. We welcome papers related to EMI, intelligent language systems, AI-assisted language learning, computational linguistics, AI-mediated communication, digital discourse analysis, bilingual education, TESOL, intercultural and academic communication, and intelligent language assessment technologies. The session also welcomes work on learner and teacher agency, classroom practice, ethical concerns, digital literacy, AI literacy, and future directions in language education. We invite submissions focusing on the topics of interest include but are not limited to the following:

1. **TESOL, Applied Linguistics, and Bilingual Education**
2. **AI-Assisted Language Learning and Intelligent Systems**
3. **Computational Linguistics**
4. **Digital Discourse and AI-Mediated Communication**
5. **Intelligent Language Assessment Technologies**
6. **Intercultural and Academic Communication**
7. **Learner and Teacher Agency in AI Environments**
8. **Ethics and Challenges in Intelligent Language Education**
9. **Digital and AI Literacy**
10. **Future Directions and Innovations in Intelligent Language Education**

Submissions:

Papers should follow the template announced on the SSIM 2026 conference website

<https://ssim2026.github.io/>, and be submitted via the [Microsoft CMT](#) system and then select

SUBJECT AREAS: Track 3: Intelligent Language Education, EMI, and Digital

Communication for submission.

Conference Proceeding Information:

Papers that are presented orally at the conference and meet the publication requirements of SSIM 2026 conference proceedings will be considered for publication in Springer conference proceedings. The primary publication plan is within Springer's Humanities and Social Sciences-related conference proceedings series. Depending on the thematic focus of accepted papers and the final publication arrangement, selected papers may also be included in a Springer Information and Computer Science / Intelligent Systems-related proceedings series, similar to the publication model adopted by SSIM 2025.

All publication arrangements are subject to Springer's final review and approval processes. Accepted papers must satisfy the academic quality standards and formatting requirements specified by both SSIM 2026 and the designated Springer publication series.

Conference proceedings published by Springer are typically submitted for indexing in major academic databases, which may include Scopus, depending on the specific series and indexing policies at the time of publication.

- Abstract Submission Deadline: **September 10, 2026**
- Notification of Abstract Acceptance: **September 25, 2026**
- Full Paper Submission Deadline: **November 05, 2026**
- Notification of Full Paper Acceptance: **November 30, 2026**
- Camera-Ready Paper Deadline: **December 10, 2026**
- Conference Dates: **December 17-19, 2026**
